- ➡ Grasp exam formats and **creative writing techniques** to conquer 实用文(书信, 电邮) 和 大作文(记事文, 议论文).

“ What others have to say ”

Wish that we have discovered Superstar Teacher earlier

Superstar Teacher has been a great source of learning for my daughter since Secondary 3 and we wish that we had discovered it earlier. With the progress shown after going through the video lessons and worksheets, we have since subscribed to all the P4 subjects for our son. With Superstar Teacher, my daughter has **saved a lot of time** and has been able to plan appropriately her study schedule since it is **available anytime, anywhere**. It is much easier to come back home and settle in a comfortable environment to study, especially with long school hours. She also has the advantage of going back to the videos and replay the lessons till she is clear of the subject. The **worksheets are helpful in cementing her learning** and the tokens provided also help her when she has questions.

Dinesh Shetty – parent of Arya Shetty (Sec 4, Bedok View Secondary)

Homework Help feature managed to clear my doubts

Superstar Teacher has truly aided my children in their learning and school work. I applaud the 'Homework Help' function that enables **'live' mentoring** to homework issues that my child is facing. I feel that having daily practice along with the **tracking function** help parents like myself to monitor their progress. There is also a **periodic progress report** to update parents on their kids' learning status. My children's results can affirm that the program's teaching and contents are **aligned with MOE's syllabus**. I recommend Superstar Teacher to parents who are looking for an alternative to tuition classes.

Cheryl Leo - parent of Athena Tng (Pri 3, Compassvale Primary School)

Superstar Teacher has benefitted both my son and myself

I used to send my son to those expensive tuition classes but that wasn't effective as he could not remember anything that was taught. I couldn't help him since I also found the concepts confusing. This was until one day when I found Superstar Teacher. After listening to the video lesson, I realised that my son was able to understand what had been taught and that I could coach him if he misses or forgets some of the concepts. We were able to replay the videos till we got the concepts right. The teachers in **the video lessons also managed to capture my son's attention**, enabling him to sit through the lessons. I **highly recommend** Superstar Teacher. The program has benefitted us both. I am now able to coach him and **track his real-time progress** when busy with work.

Chen Lilian – parent of Xie Yao Yi (Pri 6, Xinmin Primary School)
